AN ALL-INCLUSIVE EXPERIENCE

COMPLIMENTARY ONSITE TESTING & MEDICAL ASSISTANCE

Now more than ever, we remain true to our commitment of providing a seamless and safe travel experience for all our guests at the all-inclusive Hard Rock Hotels in Mexico and the Dominican Republic.

In response to the CDC's recent requirement for a negative COVID-19 test to all air passengers entering the United States effective January 26 we have actively worked to offer convenient and affordable onsite testing options and medical assistance for our guests*.

Onsite Testing

All existing and new U.S. reservations of 3 or more nights booked by March 31, 2022 and traveling between now and December 31, 2022 or until the government mandate is lifted will receive **2 complimentary antigen tests per room**. Additional tests can be purchased (cost varies between \$35-\$50 USD). Antigen testing meets CDC requirements, and must be taken within 1 calendar day before your departing flight to the U.S.

Extended Stay Coverage & Onsite Medical Assistance Insurance

All guests with existing and new reservations of 3 or more nights booked by March 31, 2022 and checking out between now and December 31, 2022 who test positive for COVID-19 will be able to quarantine at the hotel for up to 14 nights at no cost to them. Additionally, onsite medical assistance insurance will be included in their stay to cover medical expenses such as doctor, medication, and hospitalization.**
